TEAM 7

WE WORK
HAND IN HAND
WITH THE WORLD'S
BEST DESIGNER:
NATURE.

- it's a tree story.

We love wood.

The starting point for sensible use of resources is a sustainably managed forest, which regrows continuously under the power of the sun. With the greatest care and attention to detail, we work the fine, European hardwood into unique pieces of designer furniture that share with you our love for wood in every little detail. Sustainability, responsibility and commitment to creating value in harmony with humans and nature shape the way we think and act at TEAM 7. In terms of sustainability, wood is an unrivalled material that never ceases to fascinate us. These days especially, it satisfies a longing for authentic values and a naturalness that allows people to breathe and relax. That's why we preserve its natural character. Kitchens and furniture made from natural wood give the home a soul. Its warmth, vibrancy and natural strength inspire more and more people around the world to live a sustainable lifestyle.

*Georg Emprechtlinger,
Owner and Manager of TEAM 7*

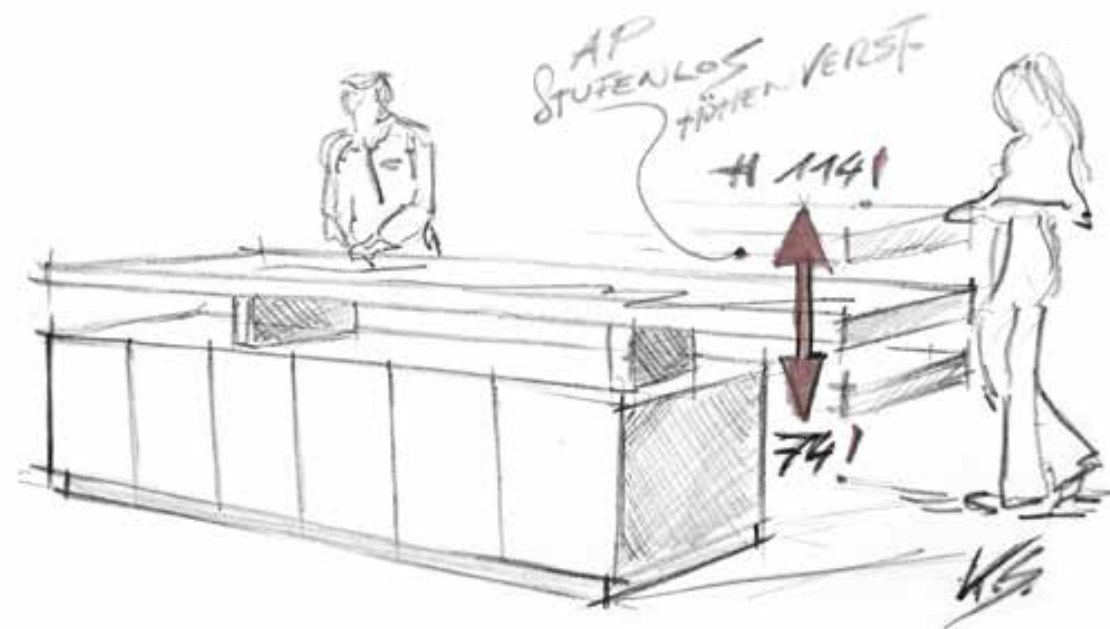

Grown for you.

Because we grow our own 74 hectares of forest we understand the great value of wood and how important it is for sustainability.

That's why we make our kitchens without exception from deciduous trees that have been growing for decades in sustainable forestry.

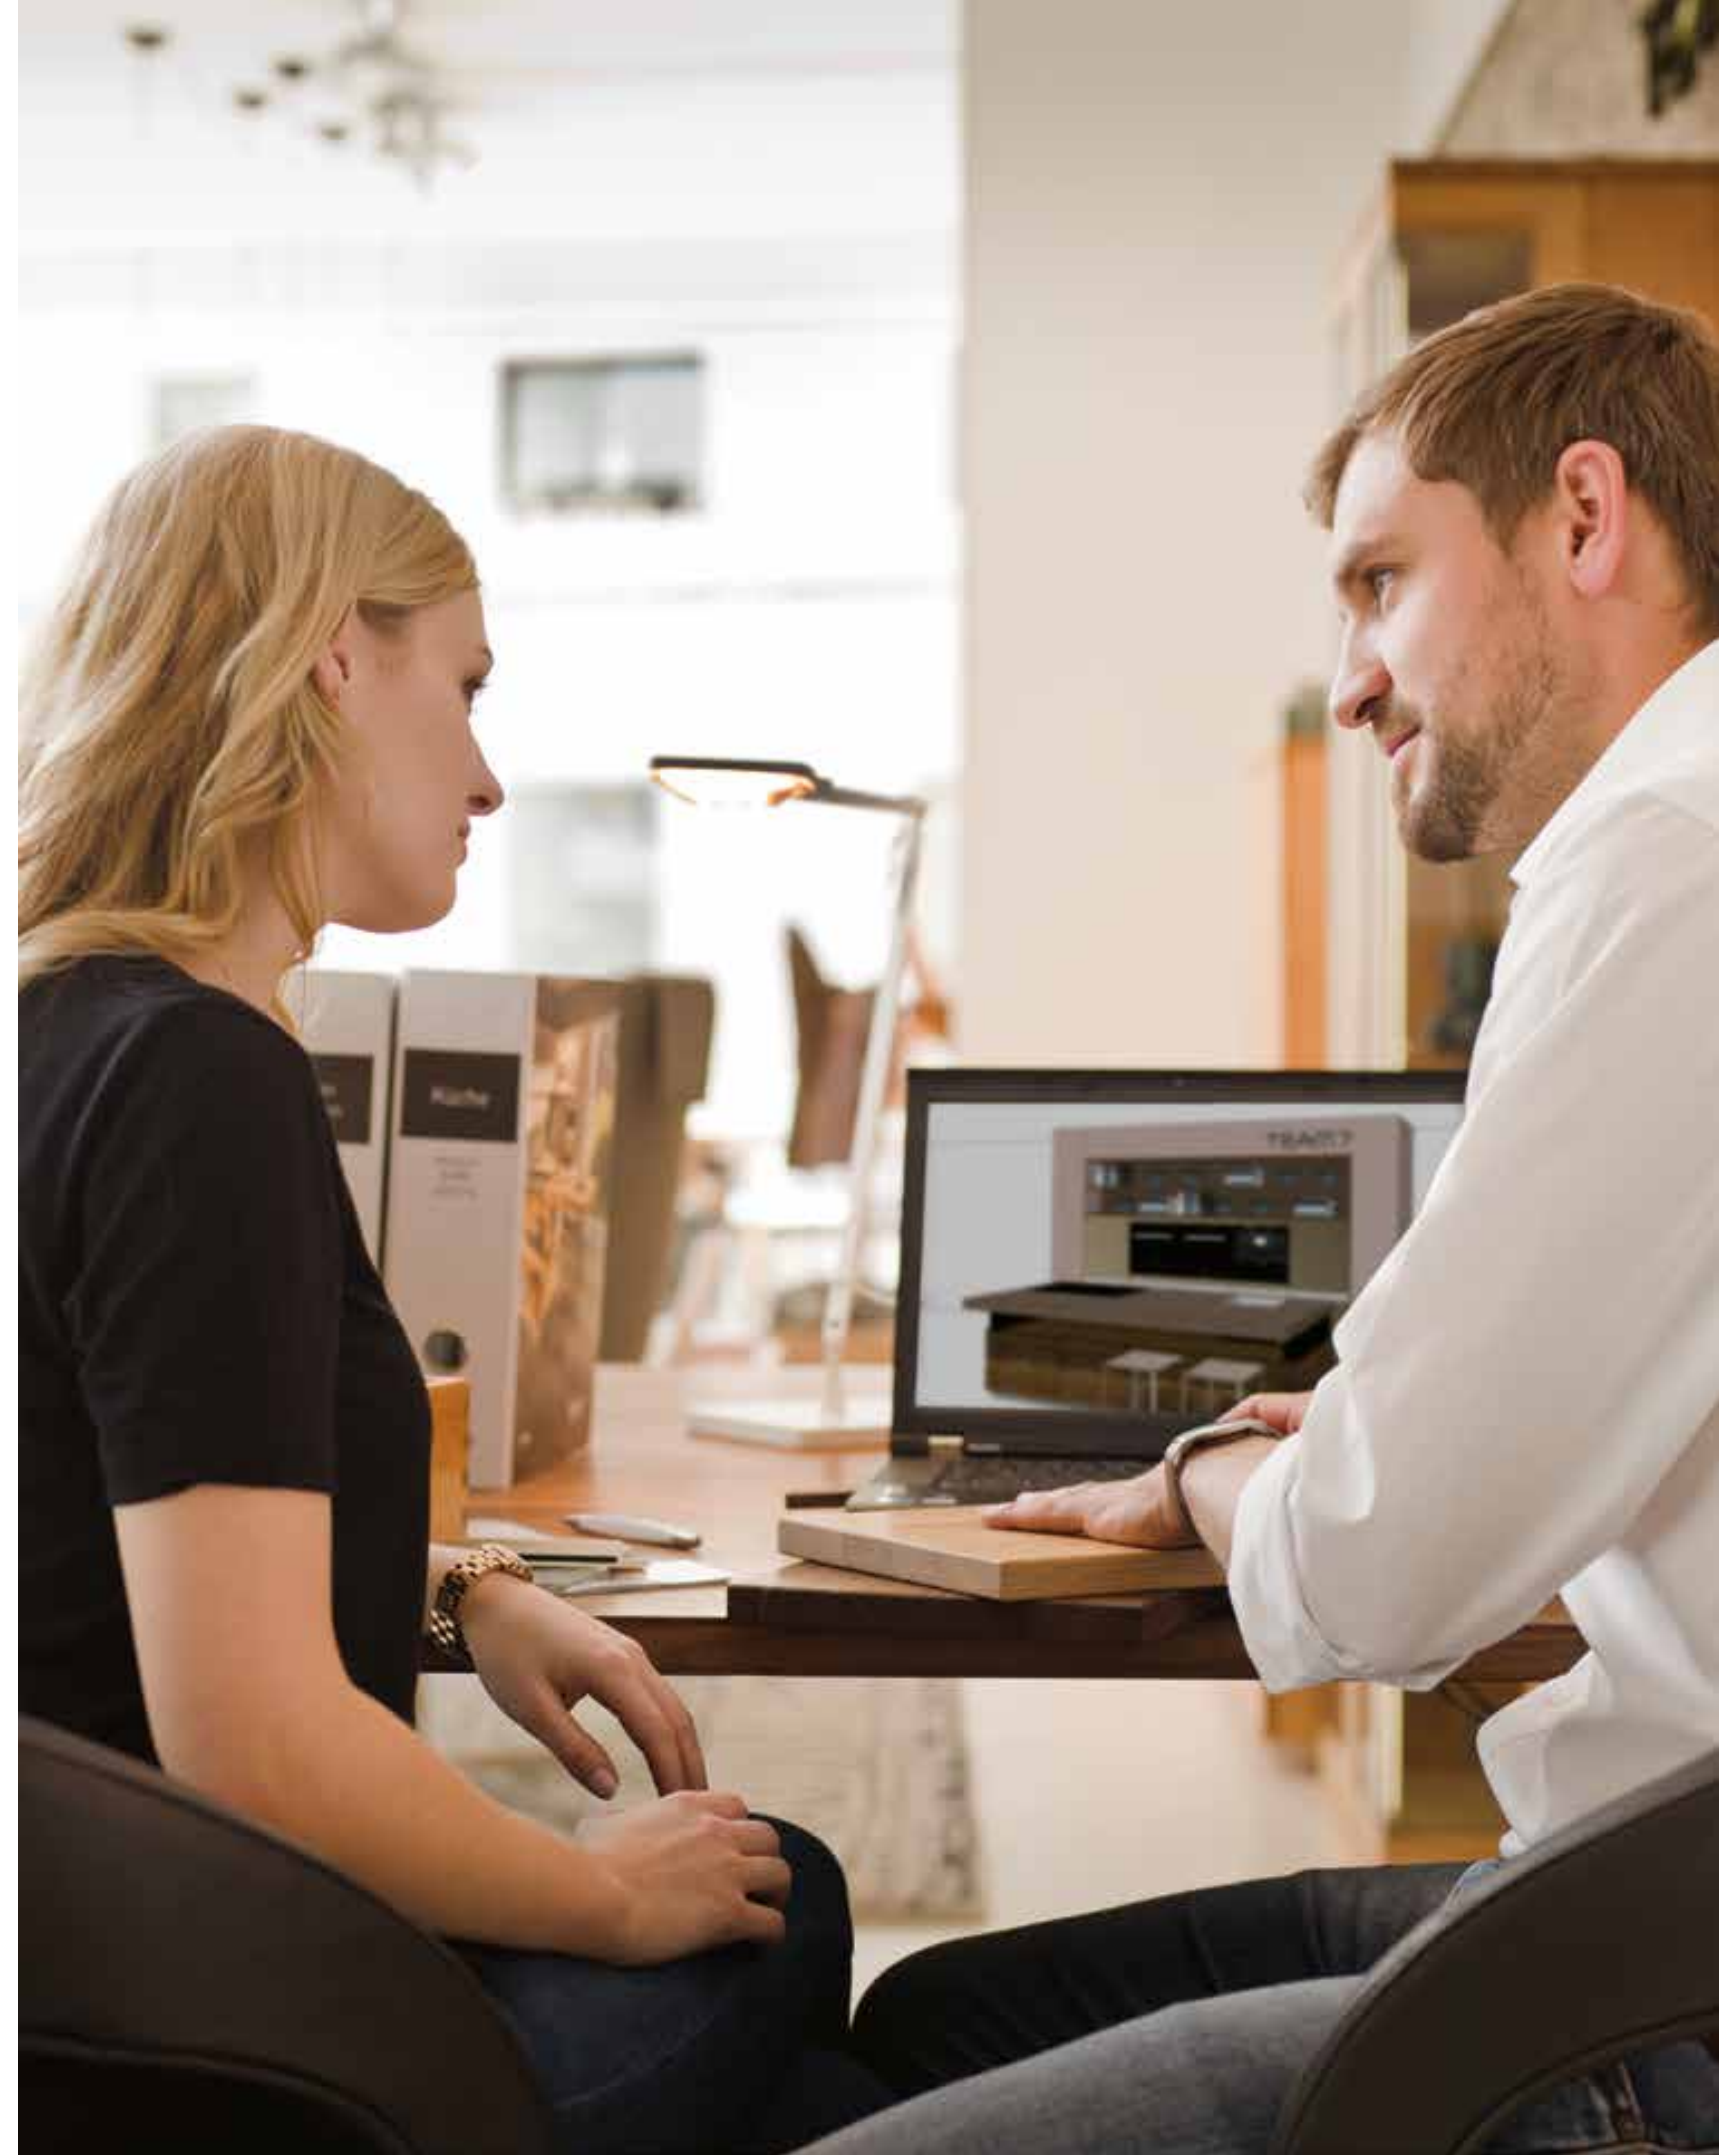

Finished exclusively with pure, natural oil, the wood surfaces of our kitchens promote a naturally healthy and comfortable climate in your home. They are very easy to care for – and to restore, if necessary. This means TEAM 7 kitchens retain their original and beautiful character for many decades.

Designed for you.

The perfect kitchen that makes cooking an absolute delight – that's what we strive for. That's why the norm is not good enough for us. Our 30-strong development team is constantly working on visionary solutions, such as our infinitely height-adjustable **k7** cooking island.

Every one of our kitchens is designed in exact accordance with our customers' ideas and perfectly matched to their individual needs. A variety of heights, widths and depths combined with state-of-the-art insides enable a wide range of possible configurations.

Made for you.

We manufacture to our customers' requirements, not to stock. Our solid wood furniture is made by experienced carpenters using traditional Austrian craftsmanship to provide tailor-made solutions. Every kitchen is a unique, largely hand-crafted, bespoke piece.

3-layer technology

In our board factory, high-quality 3-layer-boards are made of pure, solid wood. This technology enables us to achieve the amazing form stability of our boards, opening up unique opportunities for us in design and function. At the same time, it retains all the natural and positive properties of solid wood. The pattern of the wood on the fronts is sorted by hand for every visible surface. This "painting with wood" – board for board – lets us create a small piece of art.

100% solid wood

The elements and drawers of our kitchens are made entirely of solid wood. The antibacterial effect of the wood helps you to store your food hygienically. Wood is also very sturdy and makes our kitchens extremely robust and durable in combination with the latest technology.

THE FIRST STEP TOWARDS A HEALTHY DIET IS A HEALTHY KITCHEN.

- it's a tree story:

More space. We build solid wood furniture for all living areas and offer sophisticated solutions for open-plan layouts. Thanks to our individual customisation and a wide range of types, all furniture programmes can be combined and adjusted according to your needs. Regardless of whether it's a small urban apartment or a spacious loft – kitchen, dining and living blend into a harmonious unity.

linee

GLASS SURFACES IN A COLOUR OF YOUR CHOICE.*

**See available colours on NCS colour charts.*

linee

The kitchen all-rounder. With its wide range of models, the **linee** kitchen offers the perfect solution for every space situation. A base cabinet with sliding door permits fronts in larger formats, enabling more ways to design your kitchen.

*Open to everything. Practical and decorative shelf elements
liven up the kitchen design.*

Wood, wherever you look. Functional alcove elements, high-quality cabinet interiors – even the drawer divisions with their flexible widths and depths are all produced from pure solid wood.

OUR NATURAL OIL IS THE KEY TO ETERNAL YOUTH – BUT SADLY IT ONLY WORKS ON FURNITURE!

– it's a tree story.

Treated every 1-2 years with natural oil, the wooden surfaces will retain their beauty for a long time.

Natural surfaces

We finish our wooden surfaces exclusively with pure natural oil. In this way, the wood used for our kitchens remains free of toxic substances and retains its wonderful properties. It has an antibacterial and antistatic effect, absorbs odours and helps regulate humidity. Our kitchens are thus snug and have a healthy indoor climate. The oil used for our kitchens contains natural ingredients such as linseed oil, sunflower oil or beeswax and can be purchased from your TEAM 7 specialist dealer.

Care and cleaning

The pleasant feel of our oiled wooden surfaces is a real treat and you are sure to be won over by their everyday practicality, from simple, daily cleaning to minor repairs. This is because even dents and scratches can be easily repaired with open pore treatment. Even the traces of many years of use can be removed: sand down, apply oil, and you're done. Your kitchen will look like new.

WE CREATE
NOT ONLY
FURNITURE,
BUT ALSO
VALUES.

- *it's a tree story.*

linee

"Light cuisine" à la TEAM 7: The transparent side wall creates a light and airy visual effect in spite of the impressive material thickness of the extendable table. The additional space can be used as a dining area or work surface.

It's all a question of the ingredients. The successful mix of material, consisting of solid wood, stone, stainless steel, clear glass and coloured glass, has everything that you may need for designing a modern kitchen. This includes clever additions such as practical waste separation systems and concealed switches and sockets.

NATURE
FASCINATES
WITH ITS
DIVERSITY.
SO DOES LINEE.

- it's a tree story.

linee

Go ahead and do your own thing.
Alcove units with wooden or coloured
glass rear walls lighten up the appearance
of the kitchen and make it feel cosier.
With various handles as well as numerous
cabinet and front variants, the **linee** kitchen
offers you plenty of design options.

It's a storage space miracle. With modern fittings, such as this easy-to-use corner cabinet, every centimetre of space is used optimally in our kitchens. The versatile shelf system offers additional space for storing useful and decorative pieces.

linee

The kitchen to please every taste. From the simple kitchenette to the luxurious eat-in kitchen with an island, classical or modern: The **linee** kitchen can be designed freely – perfectly adaptable to your requirements.

A walk-in storage space solution behind the kitchen row planned with our shelf system highlights the flexible designing options offered by TEAM 7.

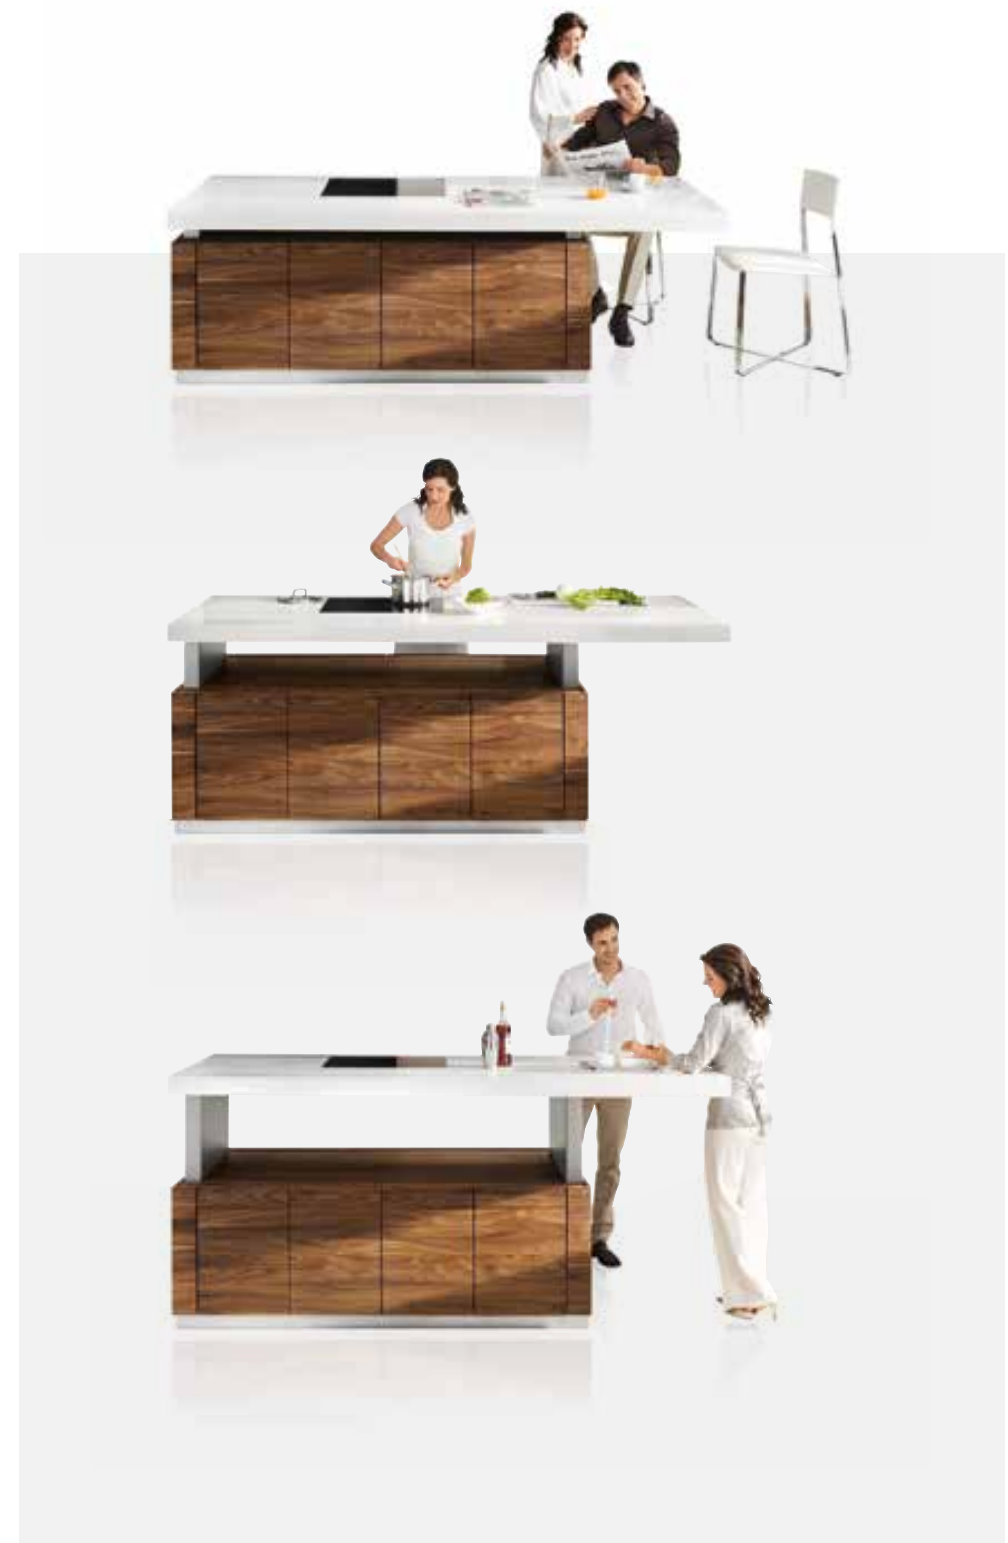

*The little sister of the **linee**. The **U** kitchen is the attractive **TEAM 7** entry-level kitchen – ideal for first-timers and small apartments. The individual elements of **U** can be combined freely with cabinets from the comprehensive **linee** range.*

The centrepiece of the k7 kitchen is the kitchen island (infinitely height adjustable from 74 cm to 114 cm) with its continuous, hand-sorted wood pattern on the fronts.

WE HAVE CROSSED A KITCHEN WITH AN ELEVATOR.

- it's a tree story.

*Move to the next level at the press of a button.
The flush-mounted control element facilitates easy handling.*

k7

The infinitely height-adjustable worktop of the **k7** kitchen island can be adapted to your ergonomic and individual requirements – use it as a table, bar or work surface.

The flush-fitted k7 pull handle developed by TEAM 7 is seamlessly integrated in the metal band on the fronts and is revealed with a light tap. Switches and sockets vanish behind a cover cap made of solid wood.

**EVERYTHING WE DO,
WE DO WITH PASSION.
EVERYTHING WE MAKE,
WE MAKE FROM
PURE NATURAL WOOD.**

- it's a tree story:

k7

The **k7** cooking island worktop can be designed with an overhang either on the side or to the front. This provides enough legroom for sitting comfortably with bar stools or chairs.

Well thought out shelves swing out fully from the corner cupboard. A special anti-slip coating on the surface of each shelf provides the necessary grip.

The ingenuity of nature is the inspiration behind our constant drive to find new solutions for greater functionality and comfort. We implement them with our signature attention to detail and perfect craftsmanship, that's what makes our kitchens and furniture so extraordinary. Numerous patents and utility models underline the innovative power of TEAM 7. Our entire kitchen range is GS certified.

This means that, in the development phase itself, we comprehensively test the function, ergonomics, stability and safety of our products in our own laboratory, over thousands of cycles.

TEAM 7 furniture is always made to order – with perfected technology and function.

vao/linee

Extremely sturdy solid wood shelves accentuate the kitchen design.

vao/linee

A painting for your kitchen. The **vao** kitchen island impresses with its elegant, minimalist design language. The centrepiece is crafted from elegant solid wood, providing a delicate framework with its surface pattern.

Everything has its place here. For greater comfort, the wall unit flaps can be equipped with an electric opening and closing function.

WHERE YOU CAN FEEL THE LOVE FOR WOOD.

- it's a tree story.

*Grip grooves allow you to feel the natural material and allow us to design the **vao/linee** kitchen entirely without handles.*

vao/linee

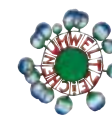

The grain of this elegant solid wood always runs horizontally, highlighting the consistent horizontal lines of the **vao/linee** kitchen.

The recessed base of the kitchen island lends it a light and airy visual effect.

WE SET AN EXAMPLE WHEN IT COMES TO THE ENVIRONMENT. GUARANTEED.

- it's a tree story.

The Austrian ecolabel is a mark that guarantees healthy living – free of harmful substances. Tested by an independent testing body according to strict standards, this mark confirms that our furniture is not harmful to the environment or to health. It confirms that the wood used in our furniture comes from sustainably harvested forests and promotes a healthy living environment due to its special surface treatment. The Austrian ecolabel is also a quality mark for high-quality products that excel due to their long life, suitability for use as well as safety and comfort in daily use.

The EMAS certificate provides proof of our sustainable production methods, efficient use of resources as well as compliance with applicable environmental laws. As an ISO-certified company, we are committed to the implementation of international standards and the associated requirements related to the environment, quality and safety.

Design awards

We make kitchens with outstanding functionality and a timeless design, with technology hidden discreetly in the background. Our kitchens combine a clear, distinctive design with sophisticated ergonomics and high comfort. Today we are creating the classics of tomorrow.

IN OUR OPINION,
A KITCHEN
CAN NEVER
CONTAIN TOO
MUCH WOOD.

- it's a tree story.

Thoughtfully designed lighting systems ensure that your kitchen is brightly lit and has a pleasant ambience.

loft

The **loft** kitchen is the modern country cottage kitchen for those who love wood, enjoy cooking and appreciate authentic craftsmanship and natural materials. Here, the design impresses both due to the vibrant aura of wood and the careful details of traditional production techniques.

It's all a question of how you divide up your space. The versatile elements of our drawer divisions can be combined as you wish and changed at any time.

loft

Feel at home instantly. The warmth of pure, solid wood and the open plan layout of the **loft** kitchen ensure an especially pleasant and cosy atmosphere.

Natural materials in our kitchen guarantee a healthy environment for preparing your food.

THE MOST
IMPORTANT
INGREDIENT FOR
OUR KITCHEN:
A GENEROUS
HELPING OF
NATURAL WOOD.

- it's a tree story.

loft

Take, for instance, a **loft** extendable table, optionally fitted with a cutlery drawer or a pull-out with insert, combine it with our **loft** kitchen – et voilà – you already have a meeting place for the whole family to hang out in. For an even brighter, more vibrant feel, consider ordering your kitchen in wild oak or walnut.

The ultra-thick butcher block with the tried-and-tested juice groove can be integrated in the worktop, is extremely sturdy, and is a must for any expert chef.

WE USE THE MOST
RELIABLE AND
SOPHISTICATED
TOOLS WE CAN FIND:
OUR HANDS.

- it's a tree story.

loft

Take your pick. These versatile elements made of wood and stainless steel can be free-standing or suspended so cooking utensils as well as ingredients are always within easy reach. Made from the same wood that is used for the kitchen, they blend harmoniously with the hand-sorted wooden fronts.

*Generously sized sinks accentuate the kitchen design
and make handling easier.*

Kitchen models

Sustainability starts with the design. After all, we only want to keep the things that give us enduring pleasure. That's why, when planning your dream kitchen with us, you can choose from different programmes with timeless aesthetics that will endure for decades.

SINCE
1959

linee

linee offers the widest range of products among the TEAM 7 kitchens. It is characterised by the horizontal grain of the wood and the clean, straight lines of the design.

l1

The **l1** kitchen is based on the **linee** programme, but offers only a limited number of versions. The price benefits that result from this make the **l1** an attractive TEAM 7 entry-level kitchen.

k7

Design and technology make **k7** the premium kitchen in the TEAM 7 product range. Infinitely height adjustable, the kitchen island can be adapted to suit ergonomic and individual requirements.

vao/linee

vao/linee is the kitchen for design purists. Designed without handles, the kitchen island impresses with its elegance, minimalist design language, highlighting the natural wood.

loft

The **loft** kitchen is the modern country cottage kitchen for those who love wood, enjoy cooking and appreciate authentic craftsmanship and natural materials.

rondo

rondo represents the classic country cottage kitchen. Open shelves, top boards and rounded edges lend the **rondo** kitchen its traditional style.

Types of wood

*TEAM 7 offers the right kitchen to please every taste. The **linee**, **l1**, **k7**, **vao/linee**, **loft** and **rondo** programmes are available in numerous wood types. Attractive glass colours and coloured glass in the colour of your choice* offer further customising options. (*See available colours on NCS colour charts.)*

Handles

The original look of every TEAM 7 kitchen is completed with the selection of the matching handle. Whether pendulum handle, strip handle, bar handle or entirely without handle – functionality and aesthetics combine to make a statement that lends each kitchen its personal flavour.

Flush fitted

FG

Flush-fitted strip handle in stainless steel finish, recommended for **linee**, **l1** and **loft** kitchens

PG

Pendulum handle in stainless steel finish, for the **k7** kitchen line

GFU

Integrated grip grooves of the **vao** kitchen island

AP-SD

Drawers, refrigerators and dish washers can be optionally fitted with servo drives and without handles

AP-TD

Touch fittings (without handles) for hinged doors

Without handles

Bar handles

GKU

Cubic bar handles in stainless steel finish, recommended for the **linee**, **l1** and **loft** kitchens

EF

Round bar handle 12 mm in stainless steel, recommended for **linee**, **loft** and **rondo** kitchens

MG

Metallic handle in stainless steel finish, recommended for the **linee** and **loft** kitchens

G0

Oval bar handle in stainless steel, recommended for **loft** and **rondo** kitchens

GR

Round handle in stainless steel finish, recommended for **linee**, **loft** and **rondo** kitchens

EG

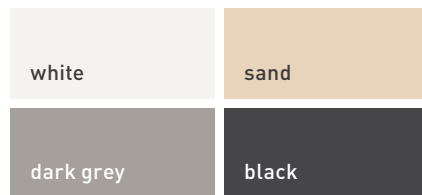

Round bar handle 20 mm in alder, recommended for **loft** and **rondo** kitchens

Worktops

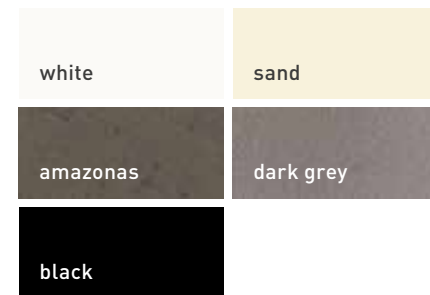

*For every TEAM 7 kitchen, worktops are available in ceramic, natural stone, quartz and wood.
Our kitchens can also be combined with a variety of materials that are suitable as kitchen worktops.
Our TEAM 7 kitchen specialist dealers would be pleased to advise you.*

*Worktops made of solid wood are sturdy, easy to care for and hygienic. Treated only with natural oil, the open-pore structure of the wood is maintained, thereby retaining its valuable properties.
The treatment has an anti-bacterial effect, neutralises odours and regulates humidity.*

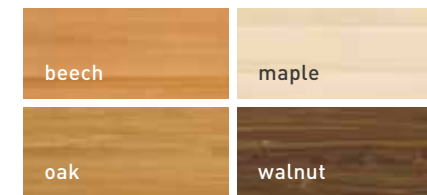

Ceramic

Quartz

Wood

Drawer organisation

Ingenious accessories create order with a system. The width and depth of the drawer division elements can be combined flexibly and extended at any time. Versatile inserts utilise every corner and furthermore preserve all the stored items hygienically and safely.

Storage space solutions

Not even one centimetre of space is wasted. With our storage space solutions, your ingredients and cooking utensils are always within easy reach. The customised features enhance cooking pleasure.

Order and a clear overview are as important as ergonomics here.

Lighting, hanging systems and ventilation grids

Bright light for working and dim lighting for relaxing: Our LED lighting systems can be dimmed and are available in two light colours, cool white or warm white. Diverse hanging options allow you to utilise every recess to the max. Ventilation grids can be optionally fitted in the top board to ensure cross-ventilation. The waste heat from built-in components can dissipate in this way.

Sinks and waste separation

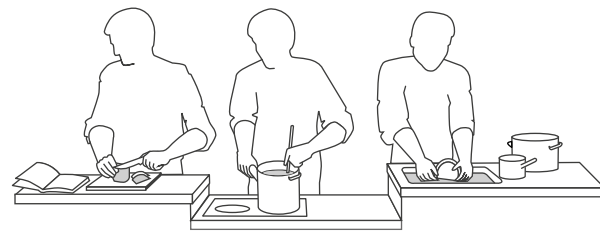

Sinks play a central role in the kitchen and accent the kitchen design.

Here, our TEAM 7 kitchen specialist dealers can offer you a lot of options with our wide range of sinks. Innovative waste separation systems ensure cleanliness and order.

Ergonomics

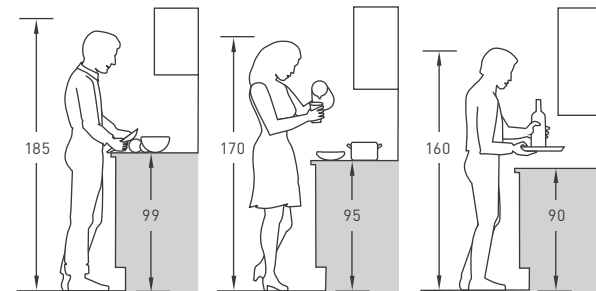

TEAM 7 solid wood kitchens give highest priority to ergonomics. Numerous heights, widths and depths as well as our order-based, custom-made designs allow us to adapt our kitchens optimally to your individual requirements.

Working height (see chart)
Cooking range height [-4 to -8 cm]
Sink height [+3 to +8 cm]

Step by step to your custom-made TEAM 7 kitchen. First select general working height, then that of cooking range and dish washer.
