LEICHT

#1 Luxury German Kitchen Brand

Today, Leicht is the leading German premium kitchen brand in the U.S. This is due to a powerful package which includes the following:

Sticking to the core philosophy - established by the Leicht brothers in 1924 - of delivering high-quality kitchens at reasonable prices, nine separate price groups together with a large variety of accessories, lighting and hardware options all contribute to making Leicht extremely price-flexible.

Concerning innovation and quality, Leicht is a consistent award winner of the iF Product Design Award, most recently for its Xtend + illuminated shelving system. Notable innovations also include the Interior+ System and concrete finish.

Fast production times result from high factory efficiency, which allows for a quick turnaround between orders and delivery. Leicht is a champion of customization and flexibility in its manufacturing process - a hallmark of this German company.

Leichtny.com

LEICHT

NOBILIA

World's largest kitchen manufacturer, with a building capacity for 3,000 kitchens per day - all made in Germany.

Nobilis is capable of producing the largest number of kitchens in the world due to its singularly high level of efficiency. By filling the gap between economy cabinets and higher-priced European brands, Nobilia is able to produce high-quality kitchens that are comparable with other, more sophisticated German kitchen brands but at lower prices.

Nobilis maintains the highest level of quality control in its manufacturing process. (Please see Quality Guide & videos at www.GermanKitchenCenter.com).

This renders Nobilia the preferred choice by homeowners, developers, architects, interior designers and contractors.

TEAM7

Team7 is the world's leading solid wood kitchen and furniture manufacturer and is 100% GREEN!

Team7 has engineered a patented system for working with solid wood using all green materials, earning the reputation as the undisputed world leader in solid wood and sustainable non-toxic kitchens and furniture for the entire home.

In addition to natural wood and glass kitchens that are considered to be of the finest quality in the world, Team7 also manufactures exceptional furniture for the entire home -- including tables, wardrobes, living room systems and custom furniture. Team7 is completely custom and is the world's only established brand manufacturing 100% solid wood kitchens and furniture. Team7 owns its own nearby forests, allowing it to replant all trees sourced. In addition, products are manufactured using only environmentally friendly materials with no added formaldehyde.

TEAM7

VALCUCINE Innovation for Life.

Valcucine has stood out in the kitchen sector for over thirty-five years, focusing on well-being, innovation and timeless kitchens that are made to last. The company has earned a reputation for its dedication to improving ergonomics and the use of space, which has led to the Logica System, first created in the 90's. This innovative system features an equipped back section, jumbo drawers, and wall units with lift-up doors - all of which makes it easier to work in the kitchen because everything is within easy reach.

Valcucine's extensive experience and continuous research into improving people's daily interactions with their kitchens has led the company to develop an innovative "Special Elements" range.

All of the beauty of ancient crafts is enhanced in the customized embellishments of Genius Loci drawers that turn the kitchen into a unique place. This, because every kitchen should be as different as its owner.

MATTEO GENNARI

World leading solid wood 100% green kitchen and furniture manufacturer. Matteo Gennari started his career as a talented chef--when one day, he realized that what he really wanted to do was to create the world's best kitchens. Many manufacturers make great kitchens, but no one has ever taken it to the quality and craftsmanship level of Matteo Gennari. Matteo created some of the world's most exquisite kitchens, and his client list (strictly confidential) includes some royal families and many of the world's wealthiest individuals. Matteo Gennari creates spaces that are completely individual, one of a kind, and with levels of detail that are not found anywhere else.

The following is one thing that makes Matteo Gennari completely different from all the rest: typically, a great designer would design a space; and then, artisans would need to create it. Quite often, this creates the notorious construction battle between design and execution when the contractor says, "That's a great design. But how can we build it?". Matteo Gennari's advantage is that he's not only the designer, but also the manufacturer, fabricator, artisan and installer. This creates a completely superior advantage for anyone who would like to create a one-of-a-kind space by eliminating any potential conflict between design and execution. In recent years, Matteo Gennari has evolved from making kitchens to creating entire spaces. Matteo Gennari and his team of artisans can create an entire space or home from A to Z--including all fabrics, furniture, lighting, flooring, ceiling, paneling, fixtures and all of the details required to complete a one-of-a-kind space.

DOCA

Europe's leading finish innovator

Doca is the European market leader in true customization and cutting edge finishes.

New finishes are introduced every year by the leading European kitchen brands, but only Doca is the first to adopt all of the new finishes into its product offering, making it the leader in the variety and flexibility of finishes.

In addition to being the only European manufacturer which is truly 100% customizable, Doca also makes 100% custom closet and wardrobe systems. Doca is capable of reproducing, at a high quality and at a great price, any kitchen produced by the leading brands, including Bulthaup, Boffi and all of the other leading brands including the Siematic Beaux Arts.

DOCA

PIANCA

Pianca offers the best value for money by combining high-level Italian-designed furniture and closets at competitive pricing. Pianca is the only Italian manufacturer holding stock in the U.S., which allows faster delivery times than those of all other European brands. High-quality wardrobes and walk-in closet systems offer comparable styles to other great Italian brand names, such as Dada and Poliform.

The Pianca furniture and closet lines offer an extensive variety, which allows us to furnish entire homes from A to Z, including dining and living rooms, home offices, libraries and upholstered furniture.

PITT COOKING

Fully Integrated Cooktops

PITT Cooking is North America's first and only fully integrated cooktop. There's no need to choose between form and function, as this cooktop reigns in both categories. There are 29 different configurations to cook exactly the way you want while maintaining a sophisticated, uncluttered design with no metal frame outline on your countertop. Not only is the appearance elegant and modern, it elevates the conventional cooktop to a new level of sophistication. Sealed burners are available in 6,000 and 10,000 BTUs. Plus, there's a sealed power burner that ranges from a hint of heat at 650 BTUs up to a blistering 17,000 BTUs for everything from melting chocolate to searing steaks. PITT Cooking gas burners are of the finest quality available on the market today and are quickly becoming known worldwide as the preferred gas cooktop solution.

HÜLSTA

#1 Premium German closet and furniture brand

Hülsta is the most recognized furniture brand in Western Europe. With a history of 75 years, Hülsta is the most recognized furniture brand in Western Europe. Made in Germany, Hülsta's lines comprise wardrobes, walk-in closets and all types of furniture for the home. This includes dining rooms, living rooms, beds, bedroom furniture, hallway and foyer furniture. Manufacturing parameters call for meticulous standards of quality control. Hülsta's innovation is demonstrated through unique features such as lacquered closet interiors, which fact makes them the only wardrobe and closet brand that can claim this as a standard feature. During the last decade, Hülsta introduced a lower-priced line called "Hülsta Now," which is a more accessibly-priced line that still maintains the renowned quality the brand is known for.
