METROPOLIS FINISHES SYSTEM

Metropolis ama abbinare colori e finiture: venature del legno e del marmo, superfici lucide e opache, tonalità chiare e scure. Tutto è possibile e tutto è abbinabile grazie a una cucina dalle infinite combinazioni materiche e cromatiche. Crea la Metropolis più adatta a te.

Metropolis loves to combine colours and finishes: wood and marble veins, gloss and matt surfaces, light and dark shades. Everything is possible, everything can be mixed and matched thanks to a kitchen that offers endless material and colour combinations. Create your own, personal Metropolis.

METROPOLIS NEW PROJECT EVOLUTION SYSTEM

Più altezza e profondità in cucina per migliorare l'utilizzo degli spazi: la nuova modularità di Stosa offre una maggiore capacità contenitiva, grazie a basi, pensili e colonne più profonde e allo zoccolo ridotto ad un'altezza di 8 cm.

Greater heights and depths in the kitchen improve space exploitation: new Stosa module sizes offer greater storage capacities thanks to deeper base, wall and tall units and a lower, 8 cm high plinth.

style**solution**

In cucina tutto deve essere pratico e agevole, dalla disposizione degli elementi fino all'apertura delle ante. La gola, orizzontale nelle basi e verticale nelle colonne, è perfettamente integrata nel design e rispetta i principi dell'ergonomia e dell'estetica.

In a kitchen, everything should be practical and uncomplicated: from the position of each element to the way doors open. Our groove channel, arranged horizontally on base units and vertically on tall cabinets, is perfectly integrated in the kitchen's design while respecting ergonomic and aesthetic principles.

FINISHES INTERNI ED ESTERNI COORDINATI

Finishes. Coordinated inside and outside.

La cura dei dettagli si esprime attraverso l'abbinamento delle finiture esterne ma anche interne. I ripiani in vetro con telaio antracite e il portaposate color antracite si accordano cromaticamente agli altri elementi della cucina per un'armonia d'insieme.

Cabinets with coordinated interiors and exteriors express great care to detail. Glass shelves with Antracite frames and an Antracite coloured cutlery tray are coordinated with the colours of the other kitchen furniture, creating a harmonious whole.

LIGHTING INTERNI LUMINOSI

Lighting. Luminous interiors.

Quando i moduli non sono aperti, l'illuminazione a LED dentro i cassetti e i pensili è molto utile per vederne il contenuto, soprattutto se gli arredi sono posizionati troppo in alto o, viceversa, troppo in basso. In cucina, come nel living.

LED lighting is really useful to see the contents of drawers and wall units with doors, especially if they are in a particularly high or low position. This holds true in the kitchen and in the living room alike..
